Welcome to Mali Green Herbs

At Mali Green Herbs Limited, we are dedicated to growing high-quality, fresh herbs in the heart of Kenya's lush agricultural region. Founded in 2024 under the leadership of Mrs. Rita Kavashe, our team of five works together to steer the company's operations. Located in the Eastern part of the country, our farm benefits from an excellent tropical climate, making it the perfect spot for cultivating premium herbs such as basil, rosemary, sage, thyme, green chilies and oregano.

Who We Are

At Mali Green Herbs Limited, farming is more than a business—it's a passion. Inspired by Kenya's rich agricultural heritage, we transitioned from years in the corporate world to embrace the rewarding journey of herb farming.

Mission:

To empower people to live healthier lives through the power of natural herbs.

Vision:

To become the leading supplier of high-quality, ethically sourced herbal products in Kenya and beyond.

Values:

- **Quality:** Maligreen Herbs is committed to providing customers with the highest quality herbal products, using effective and safe ingredients.
- **Sustainability:** The company prioritizes sustainable sourcing practices to protect the environment and ensure long-term availability of herbs.
- **Community:** Maligreen Herbs values fair trade practices and supports local communities involved in herb cultivation and production.
- **Innovation:** The company strives to continually research and develop new herbal products to meet evolving customer needs.
- **Education:** Maligreen Herbs is dedicated to educating customers about the benefits of natural herbs and their safe use.

These core values represent the guiding principles that Maligreen Herbs upholds in its mission to deliver exceptional herbal products and empower a healthier lifestyle.

Corporate Social Responsibility

Empowering Communities

We believe in creating a positive impact beyond our fields. Through partnerships with local farmers, training programs, and fair trade practices, we empower communities to thrive.

Environmental Stewardship

Our CSR initiatives focus on reducing environmental impact through tree planting, waste management, and water conservation projects. We are dedicated to preserving nature for future generations.

Education and Awareness

We conduct workshops and educational programs to promote sustainable farming practices, ensuring the community benefits from our knowledge and expertise.

Greenhouses

Precision Farming

Our state-of-the-art greenhouses are designed for precision farming. By controlling temperature, humidity, and soil conditions, we grow the finest herbs with minimal environmental impact.

Year-Round Cultivation

With greenhouse farming, we ensure year-round production, offering consistent quality and supply of our products regardless of season.

Innovation and Technology

We leverage modern technologies like drip irrigation, automated monitoring, and eco-friendly pest control to maximize productivity and sustainability.

Sustainability in Action

Our greenhouses are powered by renewable energy sources and use water-efficient systems, reinforcing our commitment to responsible farming.

Mali Green Herbs is proud to lead the way in responsible farming, creating a harmonious balance between nature, community, and innovation. Together, we can nurture a healthier and greener world.
